IDI STUDIO

IDI STUDIO nasce nel 2007 dall'idea del suo fondatore Ernesto Repetto di creare mobili ed oggetti unici ispirati al viaggio, alla natura ed a qualunque elemento emozionale che avesse una storia da raccontare.

Il brand cresceva e le richieste dei clienti aumentavano, nel 2009 si è presentata l'opportunità di espansione grazie alla partnership con il brand internazionale di mobili e complementi d'arredo casa d-Bodhi ed alla creazione di un sito produttivo specializzato nella produzione di mobili e complementi per la stanza da bagno, IDI STUDIO bath.

Questo ci ha permesso di lavorare con il mercato globale e di creare design esclusivi per architetti, designers e retailers di tutto il mondo.

Oggi IDI STUDIO è un brand riconosciuto per la sua qualità, per la sua inconfondibile estetica e per il metodo produttivo che crede fortemente nell'abilità artigianale, nella tradizione, nel rispetto dell'ambiente, nell'utilizzo di materiali ecosostenibili, di legno massello di recupero o di forestazione controllata, per creare mobili senza tempo.

Established in 2007, IDI STUDIO was conceived from his founder Ernesto Repetto's idea of creating unique quality design furniture and objects for new generations, inspired by travel, nature and beautiful emotional things found in everyday life.

As the brand grew and demands increase, the year 2009 presented an opportunity for expansion in a partnership with international home furnishing brand d-Bodhi and creating a new production site dedicated in developing IDI STUDIO bathroom furnishing.

These events allowed us to reach the global market working with architects, designers and worldwide retailers, creating exclusive design furniture and objects.

Today, IDI STUDIO brand is renowned for its quality, unique aesthetics and for its productive process that firmly believe in classical handmade craftsmanship respecting environment and nature, using only eco-friendly materials, old or solid plantation wood to create timeless furniture.

“where design meets nature”

Legno massello di Teak
Solid reclaimed Teak wood

Il legno maggiormente utilizzato nella nostra produzione è il Tectona grandis, teak proveniente dall'isola di Java in Indonesia.

Da sempre questo pregiato legno è stato utilizzato per costruire case e interi villaggi. Quando le case vengono dismesse ed il legno abbandonato, un nostro team specializzato ricerca e seleziona il miglior teak centenario che restauriamo per creare mobili, oggetti e complementi d'arredo.

I nostri abili artigiani rimuovono con cura i chiodi e le impurità dal legno invecchiato donandogli nuova vita in un mobile unico, che ha una storia da raccontare.

Le piccole imperfezioni, le venature e la patina originale del legno antico creano emozione, trasportando la mente in luoghi lontani.

Il legno, per noi, è vita e non vogliamo sprecarlo: i piccoli pezzi in eccesso vengono assemblati e trasformati in piccoli oggetti e pattern unici che caratterizzano molte delle nostre collezioni.

The main wood used in our production is the Tectona grandis tree from East Java in Indonesia.

This wood was used for decades to build villages and houses. After years the houses are abandoned and wood falls into disuse. In the past this wood would have been left to decay, for this reason we have a dedicated team who bring us old teak wood to use as our raw material.

Our skilled craftspeople carefully remove nails and hinges, under their skilled hands the wood comes alive again in individually created furnishings that will last for years.

Touching the small nail holes, cracks or old joints recalls stories of the wood's exotic, tropical past.

Wood is life, every piece of wood is important and we don't waste it. The smaller cut-off wooden pieces are transformed into unique mosaic patterns in several collections.

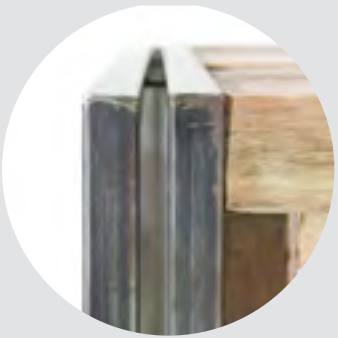

Altri materiali
Other materials

Mixed wood original patina

Old boats wood

Iron

Recycled materials

Il materiale principale della nostra produzione è il teak massello ma siamo costantemente alla ricerca di nuove e particolari essenze di legno e materiali di recupero che sapientemente lavorati conferiscono alle nostre collezioni un look unico ed irripetibile.

Our main material is solid teakwood but we are constantly searching and handcrafting new types of woods and reclaimed materials that give to our collections a unique and emotional touch.

Handcrafted timeless funiture

The beauty of solid reclaimed Teak wood

Fendy

La collezione Fendy è caratterizzata dall'abbinamento di legno massello di teak e ferro.

Le sue linee pulite la rendono elegante e minimal con un tocco industrial-chic creato dal fascino del vecchio legno.

Fendy collection is characterized by the blend of solid teak wood and iron.

Its clean lines make it minimalistic and modern, with an industrial-chic touch enhanced by the old wood.

Tuareg

La collezione Tuareg è caratterizzata da diverse essenze di legno tropicale in patina originale, come il teak e il mogano, che vengono abbinati sapientemente ricreando i caldi colori del deserto.

Tavoli, credenze e librerie sono definiti dalla linearità del tubolare in ferro.

Tuareg collection is characterized by different types of original patina tropical wood, as teak and mahogany, that are skillfully matched recreating the warmth of the desert's colours. Tables, sideboards and bookracks are defined by the simplicity of the iron structure.

Kasting

Kasting è industriale e contemporanea, il perfetto arredo per cucine, loft e spazi ariosi.

La struttura è realizzata con tubi di ferro galvanizzato e giunti in ghisa, contrassegnati dal marchio d-Bodhi, che creano solide connessioni tra il legno e il ferro.

Ruote e tiranti rendono la collezione pratica e robusta e le conferiscono un aspetto industriale unico.

Kasting is industrial and contemporary, the perfect furniture for kitchens, lofts and airy spaces.

Frames are built from iron galvanized pipes, cast irons joints marked with the d-Bodhi isotype make solid connections between wood and frames. Wheels and tension wires make the collection both practical and sturdy and add to its unique industrial character.

Tubeline

La collezione Tubeline si ispira alle vecchie panche giavanesi in teak, chiamate Dingklik. Il suo look industriale che abbina materiali grezzi a linee e forme dal design contemporaneo è adatto anche a ristoranti, negozi e bar.

La struttura è disponibile in ferro grigio o nero.

Con Kasting e Ferum, Tubeline rappresenta la Rivoluzione Industriale.

*Tubeline Collection is inspired by old Javanese dingklik benches.
The industrial look combining rough materials with fine lines is very popular and a favorite of restaurants, shops and bars.
Pipes are available in both natural iron grey and black.
With Kasting and Ferum, Tubeline represents the Industrial Revolution.*

Fissure

La collezione Fissure ha un design senza tempo realizzato in legno massello di teak di recupero proveniente da vecchie case e costruzioni.

La particolarità delle fessure tra le superfici del legno dalle diverse texture liscia e ruvida caratterizzano la collezione.

Con la sua bellezza senza tempo Fissure è adatta ad ogni ambiente e stile.

Fissure collection is a timeless solid wood design made from reclaimed teak wood houses and buildings.

The striking visual of a gap between smooth and rough wood surfaces defines the entire collection.

With its timeless beauty, Fissure fits to every ambience and style.

Lekk

La particolarità della collezione Lekk è l'angolo a 90 gradi esaltato dai dettagli degli incastri.

Le librerie bifacciali possono essere utilizzate come divisori.

Lo spessore dei top dalla finitura spazzolata conferisce alla collezione un look solido ed essenziale.

The peculiarity of Lekk collection is the 90 degree angle enhanced by the details of the wood joints.

Two-sided racks can separate in an easy way the different environments of the house.

The top's thickness with rustic finishing gives to the collection a solid and essential look.

Ferum

Ferum unisce elementi metallici a legno in patina originale recuperato da vecchie imbarcazioni giavanesi.

La particolarità della collezione è il mosaico colorato formato da varie essenze di legni dalle diverse sfumature e tonalità che rendono ogni mobile unico ed irripetibile.

Le classiche scritte degli imballi da spedizione stampate sul ferro dei cassetti e delle ante conferiscono a Ferum un look industriale ed iconografico.

Ferum features metallic elements blended with original coloured javanese boat wood.

The peculiarity of the collection is the coloured pattern formed by different types of wood that make each furniture unique.

The typical shipping crates stamps printed on iron doors and drawers give Ferum an attractive industrial and iconic look.

Pure

Il teak di recupero in patina originale di Pure è accuratamente selezionato da esperti artigiani che creano un pattern unico, adattandolo abilmente ad ogni mobile.

La struttura in tubolari di ferro esalta la linearità del design e il calore del vecchio legno. Librerie, credenze e tavoli da caffè sono dotati di pratiche ruote.

Pure Collection's original teakwood is carefully selected by expert craftsmen who create a unique pattern, adapting it to each piece of furniture.

Iron pipes enhance the simplicity of the design and the warmth of the old reclaimed wood. Bookracks, sideboards and coffee tables have practical wheels.

Soul

Soul è unica per la storia che racconta e per i ricordi impressi sulla superficie del legno recuperato da vecchie case giavanesi. Il design ispirato alle solide strutture delle fattorie unito al calore del legno crea un affascinante look vecchio stile.

Soul Collection is most unique for the story it tells and the memories engraved on its surfaces from the old reclaimed wood found in Javanese houses. Inspired by the solid farms' structures, combined with the warmth of the wood, Soul creates a charming old-fashioned look.

Home solutions

Teak e ferro sono abbinati ad altri materiali di recupero come vecchie targhe di automobili, martelli, gomma e carta. Combinando questi materiali creiamo accessori e complementi d'arredo dal design unico, caratterizzati dall'unione inaspettata di colori e textures.

Teakwood and iron are combined with other recycled materials as vehicle license plates, hammerheads, rubber tires and paper. Matching these materials we create accessories and home furnishing with a unique design, enhanced by the unexpected combination of colors and textures.
